

dry love

TITLE

dry love

i can give you nought but dry love
from being so long suspended
then open ended

long-distance open-ended

lost my sight

lost my soul

i have nothing left to give but
dry love.

don't cry, love

y know, it hurts me too

god, don't say good bye love

give me one more try, love -

why love

we know, we tried too hard to fly, love

victims of time and space - long distance love

can we begin now, face to face

lost our height

lost our hope

why love

(dry love)

love -
