

free people

Because I said something to a friend,
I was taken behind closed doors;
But because your letters kept slipping through
The torture stopped, I was released!

We're free people trying to free people
We need people everywhere to help people everywhere
To be free--you're free--to help make me free too.

Because I belong to a certain group,
I was convicted without evidence;
But because your group kept the pressure on
I was tried, and then released!

(chorus)

Because I merely wanted to leave,
I suddenly disappeared;
But because your network spread the word around
I was found, and then released!

(chorus)

(over and over again until...!)
